 Amgrow

TOMATO & VEGETABLE DUST

ACTIVE CONSTITUENTS: 880g/kg Diatomaceous Earth
1g/kg Pyrethrins
10g/kg Piperonyl Butoxide

**For the control of insects
in the garden and outside
the house**

150g NET

Amgrow Tomato & Vegetable Dust is a type of insect killer that kills by damaging the insect's skin so that it can not maintain its body fluids.

HOW TO USE

Shake well before use to "fluff up" the powder. Amgrow Tomato & Vegetable Dust will control most garden insects including aphids and caterpillars that it contacts. Insects hiding under leaves will not be controlled if Amgrow Tomato & Vegetable Dust does not touch them.

Tomatoes, Flowers and Vegetables

Dust the ground between plants and undersides of leaves. Remember, any area not dusted is not protected.

Apple Trees

A fine coverage of Amgrow Tomato & Vegetable Dust over fruit will prevent infestation by codling moth. The powder residue may discolour fruit slightly and should be washed off after harvest.

Trees and Shrubs

To reduce product loss to rain, dust lightly beneath leaves wherever insects are found.

Outside the House

A coating of Amgrow Tomato & Vegetable Dust around any area where flies and ants congregate will give control over them. Blowflies contacting Amgrow Tomato & Vegetable Dust will die later.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED.

CAUTION

DO NOT allow Amgrow Tomato & Vegetable Dust to contact fish ponds, it will kill fish. When used indoors, cover all food processing surfaces before using, and do not allow to contact food. Cover aquariums and eliminate draughts before using.

DO NOT allow containers or product to get into drains, sewers, streams or ponds.

STORAGE & DISPOSAL

Store in the closed, original container in a cool, dry place out of reach of children.

DO NOT store in direct sunlight. Dispose of empty container by wrapping in paper, placing in a plastic bag and putting in garbage.

SAFETY DIRECTIONS

Avoid inhaling dust. When using the product wear goggles and disposable dust mask.

FIRST AID

If poisoning occurs contact a doctor or Poisons Information Centre.
Phone Australia 13 11 26.
